- GitHub
- Storybook
- Styled-Components
- Ajax
- Material UI
- API's
- Software development
- Front-end developer
- Figma
- Adobe XD

About me

I'm a front-end developer, based in Brazil but willing to relocate anywhere in the world, with 2 years of web development studies and 1 year on-hand working with JavaScript and other technologies. I'm currently creating a platform, which is aimed to extreme sports enthusiasts, who seek to make friends and map their favorite places to practice around the world.

IT Experience

Front-End Developer at Roller Map

January 2022 - until today

Responsible for the design and development of the Roller Map platform, which is dedicated to skateboarding and roller skaters' enthusiasts. The design was built at Figma editor and developed with VS Code, using JavaScript, TypeScript, ReactJs, NextJs, Styled-Components, Storybook, Ajax, Material UI and API's.
